

The background of the image is a photograph of an outdoor parking lot. The ground is paved with large, grey, rectangular porcelain pavers. The pavers are arranged in a grid pattern, with narrow strips of green grass growing in the spaces between them. In the background, there is a white, modern building with a large glass door. A dark-colored SUV is parked in the lot to the left of the building. The sky is clear and blue. The entire scene is framed by large, overlapping geometric shapes in various shades of red and brown, creating a dynamic, abstract composition.

# HARDSCAPE.COM PRODUCER AND SUPPLIER OF PORCELAIN PAVERS

Hardscape.com was born out of the necessity to provide our clients with innovative products that accompany the changes available in technology, in responsible sourcing and production.

We transitioned naturally and easily from a custom natural stone supplier, into a distributor of Porcelain Pavers.

Once we realized we were able to create our most beloved natural stones without having any issues with staining, spalling, or color differences, it became our mission to align ourselves with innovative producers of porcelain, that was also looking to change the hardscape industry for the better.

Throughout our search and years of experience visiting fabrication systems, and assimilating the best practices for green productions, we found ourselves propelled through our like-minded vision of innovation and responsible production to our parent company the Saxa Gres Group. Gres, the Italian word for Outdoor Porcelain Pavers, was an integral part of the merger between our companies.

Hardscape.com is the commercial division for Saxa Gres Group, a company founded on the innovative spirit and principles of two men, Mr. Borgomeo in Italy, and Mr. Ricetti in the US. The dreams that drive our company are simple, recreate unavailable beloved natural stone, in a responsible, environmentally friendly way, never settle for current designs, change what is acceptable and raise the bar.

## VISION STATEMENT

To be better, to be different, and to constantly innovate the Hardscape Industry.

## MISSION STATEMENT

Every Hardscape product we create, we believe in challenging the status quo. We believe in thinking differently and always will.

The way we challenge the status quo is by creating innovative Hardscape products never imagined before that require no maintenance and are unique in size, strength, and design.

Our Porcelain Pavers are manufactured to the highest quality standard, non-slip, rectified, large and small size formats made for Commercial and Residential outdoor applications. We listen before creating our products.
